August 4, 2022

Blessings to you Caldwell Church family & friends,

Hope everyone is staying cool, refreshed, and hydrated during these hot summer temperatures; the heat can really drain us of energy fast, if we are not careful.

I know some of you have or will be on vacation, traveling to events like: The Ohio State Fair, going to business and training events as you prepare for back to school and regular work schedules. The summer is moving quickly, and soon fall will begin with all its busy-ness.

As fall approaches we need to prepare for Church worship, Sunday school, and our Bible study and small groups; we should not stop learning and listening to God. Again I ask you to continue to pray for our Sunday School teachers, staff and for me as your pastor. Pray that we can be available and creative in finding ways to help inspire and encourage our students, congregation, and community, to grow in faith in Christ. The Holy Spirit can do great things in unexpected and unplanned ways, but we should seek the Holy Spirit, who helps us plan, instead of just doing things by our own last minute plans; pray for God's leading and guidance each day.

Churches seem to be struggling these days to find spiritual leaders: pastors and teachers who live for Jesus, who can mentor, disciple, and strengthen our children, youth, and adults in the words and teachings of Jesus. Those who are dedicated and patient enough to help them to grow into mature disciples of Jesus Christ; this takes time, prayer, and a lifetime of personal dedication.

Society is in danger with no seemingly clear knowledge and understanding of God, what is right and wrong, and accountability. As Christians in the Churches: we, ourselves, are in danger of not being able to recognize who God is. We as parents, grandparents, teachers, pastors, and leaders in the Church must instill and model the Gospel message to them, with the help of The Holy Spirit.

"Making Disciples of Jesus Christ" as our Mission statement says is not quick and easy; it begins early in life and continues throughout our lifetimes. We are always mature in faith. We never should stop learning; read, pray, teach others, this is the gospel way. God can teach us new things each day of ways to help teach others.

Please continue to pray for our community and school administrators, teachers, and staff, and especially for students. There will be some new administrators at Caldwell and Shenandoah: a Superintendent and a Principle, some new positions of leadership which we should remember in our prayers.

Please commit 10-15 minutes each day praying for our churches and community families, children, youth, and adults, so that we all become more aware of God's presence, and what it means to follow Jesus. God can do great things through our prayers.

Your truly in Service to God, and the Church

Rev. Jeff Coggins, your Pastor

DID YOU KNOW IT IS POSSIBLE TO PROVE THAT GOD EXISTS WITHOUT GOING TO THE BIBLE! **HOW?**

First let me ask you a question:

If you are looking at a building, do you think the building made itself?

OR: Do you think the building must have been made by a builder?

The answer is simple!

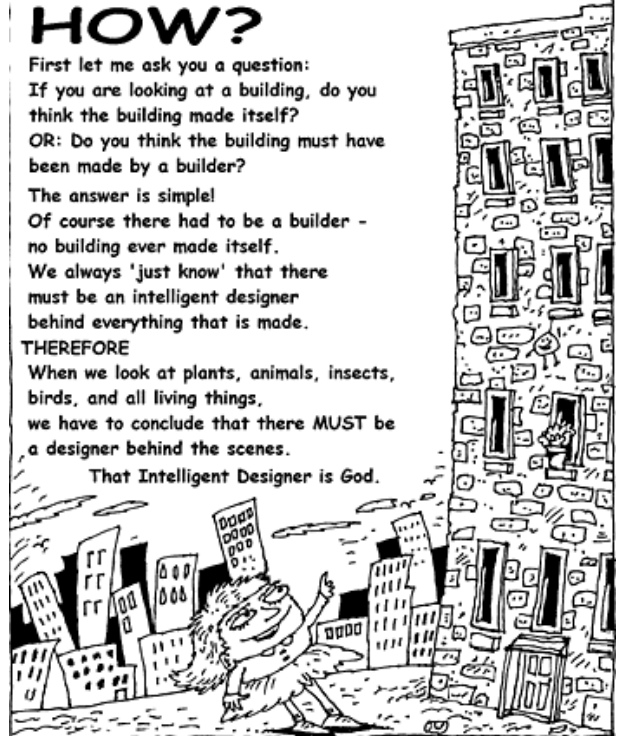

Of course there had to be a builder - no building ever made itself.

We always 'just know' that there must be an intelligent designer behind everything that is made.

THEREFORE

When we look at plants, animals, insects, birds, and all living things, we have to conclude that there **MUST** be a designer behind the scenes.

That Intelligent Designer is God.

Quilt Drawing

The Church women have made a quilt for sale.

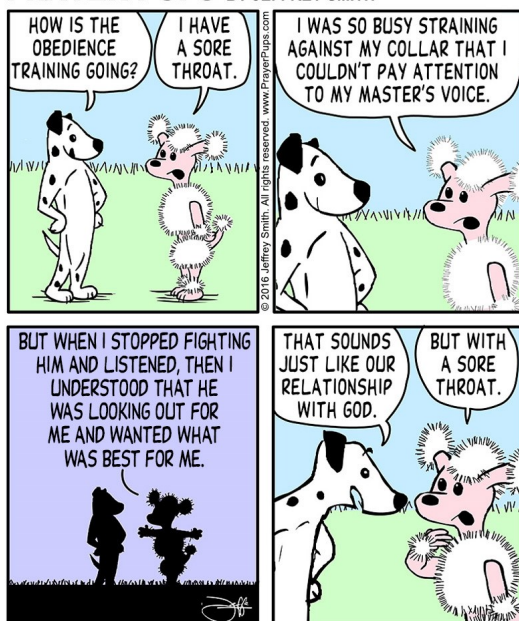

Drawing tickets are available for \$2 each.

PRAYER PUPS BY JEFFREY SMITH

**YOUR TEMPER IS A VALUABLE
POSSESSION, SO DON'T LOSE IT**

On this day in 1790 the U.S. CoastGuard was formed! Wishing a BIG HAPPY BIRTHDAY to the Coasties!

U.S. Coast Guard Birthday – August 4, 2022

Alexander Hamilton, the first Secretary of the Treasury, founded the Revenue Marine — which later became the U.S. Coast Guard. The Coast Guard is 232 years old in 2022. The U.S. Coast Guard provides maritime safety enforcement, marine and environmental protection and military naval support. As far as structure is concerned, U.S. Coast Guard is part of the Department of Homeland Security during peacetime, the U.S. Coast Guard functions under the Navy in war time. The U.S. Coast Guard is a part of the International Ice Patrol, which monitors and reports movements of icebergs around the world.

National Underwear Day – August 5, 2022

The first underwear dates back to prehistoric times — with humans wearing a loincloth. During the Middle Ages, men wore linen shorts or ‘braies.’ Women wore a ‘shift’ under their dresses. In Britain, pants were long drawers covering the whole leg. (In fact, the word, ‘panties’ evolved from a shortened version of the word ‘pants.’)

Balloons to Heaven Day – August 6, 2022

Balloons to Heaven Day hopes to create awareness of the pain and trauma that gun violence causes to families all over the U.S. A day when we remember the senseless deaths of thousands of people, often children and young people. For families who’ve lost loved ones, it’s a day to release their spirits, send them love, and celebrate their lives. Many people write notes and attach them to the balloons before releasing them. Most importantly, balloons are visual reminders to families everywhere who are coping with grief. A reminder that they are not alone in their pain.

Hiroshima Day – August 6, 2022

In memory of the fateful day and of those who lost their lives, Hiroshima Day is observed yearly on August 6. The observance serves as a reminder of the day when a nuclear weapon was used during an armed conflict between the United States and Japan, and the lives that were lost when an entire city was razed to the ground. Little did they know that the effects of the atomic bomb that was dropped by the U.S. on the city of Hiroshima, Japan in 1945 would be felt by the next generations of Japanese as well. There was a large-scale loss of infrastructure, and a large number of people continued to die years after the incident. The bomb was dropped over the cities of Hiroshima and Nagasaki in the final year of World War II by the United States. The first bomb was dropped on Hiroshima on August 6, 1945, and after three days, the second bomb was dropped on Nagasaki on August 9, 1945. The bombings killed between 129,000 and 226,000 people and destroyed the infrastructure of both cities. Despite the immense loss to life and property, Hiroshima Day is observed with the hope that such an incident will not be repeated ever again. The day encourages us to work towards an inclusive and peaceful future.

National Farmers Market Week

August 7-13, 2022

A farmers' market essentially is a place where food is sold directly from the farmer to the consumer. This means there are no middlemen. Farmer's Markets are where local farmers are provided with an extra opportunity to market the goods they grow. It also serves as a way to advertise and promote the numerous benefits of organic produce, as well as the value of such markets for a community. There are over 8,690 farmers' markets nationwide. The farmers at these markets pocket 90 cents for each dollar of sales.

DID YOU KNOW?

113 Years Ago Uncommon Cents

In August 1909, one hundred years after his birth, Abraham Lincoln goes into circulation—on the penny. It is the first time a portrait appears on a regular issue U.S. coin. Designer Victor David Brenner's initials, which appear on the back, are later removed, making the 484,000 initialed 1909 pennies minted in San Francisco into collector's items that have sold for thousands of dollars. Today, despite repeated congressional attempts to abolish it, the penny—cent copper—survives.

The penny is *not* the lowest face value coin ever produced in the U.S. From 1793 to 1857, the U.S. produced half cents. These coins are quite scarce today!

Other coins with denominations the U.S. used to make that we haven't used in many years include:

- the 2-cent piece
- the 3-cent piece
- the half-dime

Lincoln's face is the only one on a U.S. coin that looks to the right. All other portraits of people on U.S. coins face to the left.

You should save all pennies dated 1981 or earlier.

The reason you don't want to spend these pennies is because they're worth more than face value, simply due to the fact that they're made of copper.

PRAYING WITH YOUR FIVE FINGERS

My name is _____

Pope Francis has given us a simple way to pray using our 5 fingers! In the ovals, draw and color whom you will pray for with each finger.

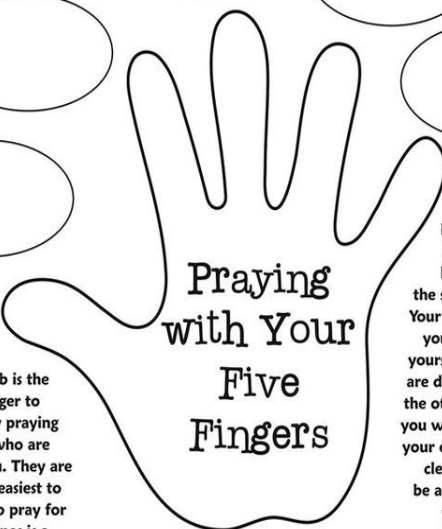

2.
The next finger is your index, or pointing finger. Pray for those who teach you, instruct you, and heal you. They point you in the right direction! They need God's support and wisdom to direct others. Always keep them in your prayers.

3.
The following finger is the tallest. It reminds us of our leaders and those who have authority in our lives. They need God's guidance.

4.
The fourth finger, your ring finger, is your weakest finger! This finger reminds us to pray for the weakest, the sick, or those with problems. They need our prayers.

1.
Your thumb is the closest finger to you. Start by praying for those who are closest to you. They are the persons easiest to remember. To pray for our dear ones is a 'sweet duty.'

5.
Finally you have your little finger, the smallest of all. Your pinkie reminds you to pray for yourself! When you are done praying for the other four groups, you will be able to see your own needs more clearly. You will be able to pray for yourself in a better way. God bless you!

Praying with Your Five Fingers

Jesus said to Thomas, "Put your finger here and see my hands, and bring your hand and put it into my side, and do not be unbelieving, but believe." --John 20:27

AUGUST

PRAYER CONCERNS

Those sick and in the hospital, and our shut-ins; for those we love who are in care centers, assisted living and nursing care. Our veterans and our world, especially the situation in Ukraine. Our teachers and students and those who assist them. We pray for unspoken requests and those we name in our heart. And for each other.
